Clark's exceptional Parts Distribution Centers are conveniently situated in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a standard feature on every forklift.

Clark has a continual goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its production plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the very economical and beneficial structure of "Lean Manufacturing" for its assembly facilities and application of resources. This system was developed to acknowledge the most effective method of manufacturing facility stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing expenses. The new value engineering agenda combines progressive product growth and offers superior customer support and service within the industry.
