

Spreader Bar for Forklift

Forklift Spreader Bars - Proudly operating since the year 1974, ELME Spreader AB is the largest independent spreader producer all over the globe. They have been a devoted manufacturer of spreaders meant for numerous applications like for example the swap bodies, trailers and handling of containers.

Engineering is done in house by means of making use of all the most up-to-date CAD systems and FEM tools. The ELME company currently employs over 125 workers. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-around the world.

The ELME product series offers spreaders for different container and trailer handling operations. Several of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a wide range of additional parts.

ELME manufacturing and production is done in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by using top quality components in order to ensure dependability and excellent standards while offering reasonable prices. Major characteristics of ELME comprise design simplicity, market reaction and ground-breaking modular spreader concept.
