

Meritor Part

Meritor Parts - Meritor is a premier international supplier which is proudly established on a 100 year custom of quality and service. They concentrate on several integrated systems, modules and parts to original machinery manufacturers and the aftermarket for the transportation and industrial trades.

Meritor values the needs of their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their global operations. Meritor starts with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over 11,200 people, Meritor encourages collaboration and innovation amongst a team of experienced experts.

By only hiring future focused staff, Meritor strongly believes these top-caliber workers would be able to quickly adapt to changing environments and demonstrate the performance and commitment considered necessary to be able to attain results in the competitive materials handling market. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor offers all of their employees different opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise drivelines, axles, braking and suspension systems utilized for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is also responsible for supporting the needs of all their worldwide engineering employees.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located around the globe in 19 nations and in 5 different continents.

The supplier development network is specifically situated to support new business growth. Regional teams are supported by worldwide initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making in every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who use Six Sigma tools to business methods and apply lean methods.
