

TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of each and every international business. Transporting industrial goods happens each day on our industrious planet. Initially innovated as industrial vehicles in the 1930s in America, forklifts gained recognition following WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread worldwide.

In the year 1949, started by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the company is simply known as TCM Corporation. Throughout the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the trade. TCM started building forklift manufacturing sites outside of Japan in the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than fifty years of accumulated expertise and technology, TCM has been proudly making numerous models of industrial forklifts, making their models known all over the globe. With an energetic and strong workers, TCM has been able to constantly work towards becoming a future leading material handling company.
